Dear Matthew

Thank you for your invoice. I thought I would just drop you a line to thank you for your care and attention in dealing with our "trees" . I am most impressed with the tidy state in which you left the garden and as I think my Wife mentioned to you it was actually tidier at the end than it was before you arrived! I will certainly come back to you if as is almost certainly going to be the case I need your specific assistance with the trees that remain in the future.

Best wishes
